

## **SolitAir Selects OASES as Their First M&E Software Provider**

**United Kingdom, 11<sup>th</sup> February 2025** – SolitAir, a B2B, airport-to-airport, air cargo daily-scheduled, time sensitive, express middle mile airline transportation company, has selected OASES, one of the leading providers of aviation Maintenance & Engineering (M&E) software, as their first MRO software provider.

As a new entrant in the cargo industry, SolitAir is setting its foundation on superior customer service, efficiency, speed, innovation, and reliability – key values that align with OASES' mission.

The signing ceremony took place at the Aviation Week MRO APAC Conference in Dubai on 11<sup>th</sup> February 2025, with Paul Lynch, Group Managing Director of OASES, and Hamdi Osman, Founder & CEO of SolitAir.

"We're honoured to sign SolitAir, adding to our growing customer base in the UAE. Our solutions support operators with seamless maintenance management, and we look forward to playing a pivotal role in SolitAir's journey," said Paul Lynch.

Hamdi Osman commented, "Launching a new airline requires strong partnerships, and we are confident that OASES' expertise and technology will enable us to build a robust maintenance operation from day one. We are excited about this collaboration and the efficiencies it will bring to our operations, including reduced downtime, cost optimization, safety improvement, and compliance with stringent regulatory requirements.

OASES has long been a trusted name in the aviation MRO sector, supporting both passenger and cargo airlines worldwide. OASES continues to strengthen their position, both in the cargo industry and in the Middle East – demonstrating the flexibility and scalability of its software solutions to meet the needs of diverse operators.

### **About Commssoft OASES**

OASES is a comprehensive, cloud-based airworthiness software solution. This powerful platform enables Airlines, MROs and CAMOs to manage their maintenance activities and leverage operational data to streamline their business efficiency.

OASES (Communications Software (Airline Systems) Limited) is part of the Valssoft Aviation Software Portfolio.

### **About SolitAir**

Dubai World Central (DWC)-headquartered SolitAir is the UAE's only dedicated cargo-agnostic airline operating express daily scheduled services between Dubai and high-yield key trade routes across the Global South, catering to the bespoke transportation needs of freight forwarders, integrator airlines, SMEs, and e-commerce businesses. Thanks to its

agile, customer-centric, and technologically advanced B2B, middle mile business model, SolitAir ensures the swift, efficient, and reliable airport-to-airport movement of goods and products. As a complementary partner to the global supply chain ecosystem, SolitAir bridges critical connections and delivers tailored speed-to-market solutions.

SolitAir operates a growing fleet of modern narrow-bodied Boeing 737-800 aircraft connecting Dubai World Central (Al Maktoum International Airport) to high yield Global South markets across the Middle East, Africa, the Sub-Continent and Central Asia while adhering to stringent global, regional and local regulations.

With a commitment to reliability, speed, flexibility and efficiency, SolitAir ensures seamless deliveries of Dangerous Goods, Pharmaceuticals, Perishables (including Meat, chicken and fish, and Frozen Goods), Valuable Goods, Vulnerable Goods, Oversized Freight and e-commerce.

SolitAir was founded by Hamdi Osman in 2024 who currently serves as CEO. Hamdi is the former Senior Vice President of FedEx Express Europe, Middle East, Indian Subcontinent and Africa.
